

PRESS RELEASE

State Tax Advisors Planning New Corporate Headquarters In Kingwood, Texas

Ground Breaking Scheduled For 3Q 2015 Pending Permits

6/17/2015

(HOUSTON) – State Tax Advisors, the national sales & use tax advisory firm, announced today the start of construction on 23740 Woodford Place Drive, an 8,000-square-foot corporate office building off of Kingwood Dr. just 20 minutes North of downtown Houston. The new headquarters will be situated in a newly developed, exclusive area of Kingwood. Construction is expected to take six-to-nine months, with delivery scheduled for 2Q 2016.

23740 Woodford Place Drive is being developed by the Founder and Managing Partner, Riley G. Epps. Mr. Epps has owned the full-tract, two-acre site since 2014. Site soil samples preparation began in February 2015.

“23740 Woodford Place Drive will set a new standard for Kingwood’s Class A space, with its combination of sustainable architecture and state-of-the-art technology driven office space in an ideal location,” said Riley G. Epps. “We are excited about the growth of our firm, reflected in the need for greater work space for both employees and Partners.”

Designed by Edge Technical Consultants, Inc., the southwest facade will open to an outdoor water space where employees can work and enjoy green space at the same time. The narrow east and west facades will be slightly recessed to blend with the outdoors, with its exterior façade clad in floor-to-ceiling glass and Texas stone accents. Interior ceilings will be

16 – 20 feet high with exposed wood rafters, enhancing the buildings lighting and offering an industrial yet elegant feel. Primetex Corporation has been selected as the general contractor.

About State Tax Advisors
